Stevie agreed to contact Lowes, Home Depot and Marvins for donations of block, cement, etc. Mayor Jon Graham said he and Stevie Edwards would talk with Vulcan Materials and Lafarge for donations. The

board decided the individual clubs need to get involved as well. Stevie Edwards will get a detailed price list together to build the outside of concession stand and bathrooms and present to these businesses and to the council in a request for funding for this project. Stevie is to email information to each member as it becomes available and report back at our next meeting. Also, on this topic Mayor Jon Graham talked about the High School's request for artificial turf on the football field. He has been meeting with High School Principal, Mr. Bishop about turf on the existing field. This was tabled till more information is provided and funding is in the budget.
